

Bäste Caepipe kund! (Information in English on page 3)

SST Systems, Inc., utvecklaren av CAEPIPE, har nyligen flyttat möjligheten att ladda ned nya versioner och utvärderingsversioner av sina programvaror till sin nya plattform kallad [PEXit*](#). En kort beskrivning av PEXit ges nedan.

Du kan få tillgång till PEXit via länken <https://www.pexit.net> från vilken webbläsare som helst, på

vilken enhet som helst. Kunder kan också hämta appen till Android via Google Play Store 

Du kan gå med i PEXit genom att skapa ett nytt konto eller logga in med ditt befintliga PEXit / Facebook / Gmail / LinkedIn konto.

Efter att du registrerat dig till PEXit, kan du ladda ned aktuell programvara via "Software> SST Products". Nedan följer detaljerade anvisningar för att ladda ned Caepipe (annan SST programvara laddas ned på ett liknande sätt):

STEP 1: At the menu on the top, go to the far right to "**Software**" and then under that submenu select "**SST's Products**".

STEP 2: Scroll down to the 2nd box which is titled "**For ME&S (Maintenance, Enhancement and Support) and Non-ME&S Users**" and then click the gray "**Download**" box in the lower right corner.

STEP 3: A box will pop up and should be pre populated with your name and email address. Underneath that, it says "**Serial #**" and there is a blank field to enter your Serial Number. Enter your CAEPIPE Serial Number (referenced above in this email) and then click the blue box at the bottom right that says "**Click Here to Get CAEPIPE**". The box will expand and to the right side and now there is an .exe file or a .zip file available to download.

STEP 4: Select the .exe or .zip file and download the new setup file. Once downloaded, double click the .exe file to install CAEPIPE v7.90.

Download the Updated CAEPIPE v7.90 Manuals and Review the Tutorials:

STEP 1: Download the CAEPIPE v7.90 User's Manual, Technical Reference Manual, and Code Compliance Manual here: <https://www.sstusa.com/caepipe-docs.php>

STEP 2: Review the Pipe Stress Analysis tutorial and 19 topic specific CAEPIPE Tutorials from here <http://www.sstusa.com/caepipe-tutorials.php>. From that link you will be re-directed to **PEXit**. In PEXit, at the menu on the top, go to the far right to "**Software**" and then under that submenu select "**SST's Products**". Scroll down and browse the available tutorials. Download any that are of interest.

Västerås, 2017-12-01

Du kan också gå med i "Pipe Stress Forum" och "CAEPIPE Forum" i PEXit enligt följande: På panelen, välj "My Cirkel", sök efter " Pipe Stress Forum " under "Connections" och anslut till den. När forumets administratör accepterar din begäran att bli medlem i forumet, blir du medlem i "Pipe Stress Forum" där många yrkesverksamma från hela världen diskuterar frågor som är relaterade till röranalys.

På liknande sätt kan du gå med i "CAEPIPE Forum" som finns tillgängligt under "Connections", där CAEPIPE / checkSTRESS-användare över hela världen diskuterar frågor som rör CAEPIPE / checkSTRESS.

Du kan också bjuda in andra personer eller CAEPIPE/checkSTRESS användare att gå med i "Pipe Stress Forum" och "CAEPIPE Forum".

För att andra yrkesverksamma ska kunna lära känna din yrkesbakgrund, fyll i din profil i PEXit med så mycket information som du önskar.

Vi tackar dig för att du gick med i PEXit.

För frågor angående ovanstående är du välkommen att kontakta

- Holger Droege på telefon 021-470 35 52 eller via e-post holger.droege@edrmedeso.se eller
- Peter Bergman på telefon 021-470 35 65 eller via e-post peter.bergman@edrmedeso.se

Vi ser fram emot ett för båda parter fortsatt givande samarbete.

Med vänlig hälsning,

A handwritten signature in blue ink that reads "Holger Droege".

Peter Bergman

Dear Caepipe customer!

Recently, SST Systems, Inc., the developer of CAEPIPE, has moved the CAEPIPE and other SST software download section to SST's new platform **PEXit***. A short description of PEXit is given below.

Customers may access PEXit using the link <https://www.pexit.net> from any browser on any device.

Customers may also download app for Android through Google Play Store 

You may join PEXit by creating a New Account or Login using your existing PEXit / Facebook / Gmail / LinkedIn account.

Once you have signed up with PEXit, the detailed steps to download CAEPIPE are the following (other SST software is downloaded in a similar way):

STEP 1: At the menu on the top, go to the far right to **"Software"** and then under that submenu select **"SST's Products"**.

STEP 2: Scroll down to the 2nd box which is titled **"For ME&S (Maintenance, Enhancement and Support) and Non-ME&S Users"** and then click the gray **"Download"** box in the lower right corner.

STEP 3: A box will pop up and should be pre populated with your name and email address. Underneath that, it says **"Serial #"** and there is a blank field to enter your Serial Number. Enter your CAEPIPE Serial Number (referenced above in this email) and then click the blue box at the bottom right that says **"Click Here to Get CAEPIPE"**. The box will expand and to the right side and now there is an .exe file or a .zip file available to download.

STEP 4: Select the .exe or .zip file and download the new setup file. Once downloaded, double click the .exe file to install CAEPIPE v7.90.

Download the Updated CAEPIPE v7.90 Manuals and Review the Tutorials:

STEP 1: Download the CAEPIPE v7.90 User's Manual, Technical Reference Manual, and Code Compliance Manual here: <https://www.sstusa.com/caepipe-docs.php>

STEP 2: Review the Pipe Stress Analysis tutorial and 19 topic specific CAEPIPE Tutorials from here <http://www.sstusa.com/caepipe-tutorials.php>. From that link you will be re-directed to **PEXit**. In PEXit, at the menu on the top, go to the far right to **"Software"** and then under that submenu select **"SST's Products"**. Scroll down and browse the available tutorials. Download any that are of interest.

You may also join "Pipe Stress Forum" and "CAEPIPE Forum" in PEXit as follows:

At the Dashboard, select "My Circle", search for "Pipe Stress Forum" under Connections and connect to it. Once the Forum's Administrator accepts your request to join the Forum, you become a member of the Pipe Stress Forum where numerous professionals from around the world discuss matters related to piping analysis.

In a similar way, you may join "CAEPIPE Forum" available under Connections, where CAEPIPE/checkSTRESS users worldwide discuss matters related to CAEPIPE/checkSTRESS.

You also may invite other pipe stress professionals/CAEPIPE/checkSTRESS Users to join the "Pipe Stress Forum" and "CAEPIPE Forum".

In order for other professionals to know your background, complete your Profile in PEXit with as much details as you wish.

We thank you for joining PEXit.

For further information regarding the above, please contact

- **Holger Droege**, phone 021-470 35 52 or e-mail holger.droege@edrmedeso.se
or
- **Peter Bergman** phone 021-470 35 65 eller e-mail peter.bergman@edrmedeso.se

We are looking forward to a for both parties continued beneficial cooperation.

Kind regards,

A handwritten signature in blue ink that reads "Holger Droege".
